To Whom it May Concern,

This is a letter of recommendation for Eric Schwartz. I hired Eric four years ago as a graphic designer for my company The Marketing Shoppe. I recently sold my business and became an employee of the acquiring business. I fought hard to bring Eric along, but the business already had a full department. That is the only reason Eric is not working for me.

Throughout the years I employed Eric, he has been an asset to my company. He is conscientious, talented, well versed in graphic applications and willing to do whatever is necessary to provide our customers with timely and on target work. Time after time, our clients have commented on how easy it is to work with Eric. Although he is very talented, I feel his ability to solve problems may be his best trait. We have gotten into projects that could have gotten out of hand if not for Eric's ability to problem solve. I can honestly say Eric has never let me down.

I highly recommend Eric for any position in the graphic arts, web design and development field.

Sincerely,

Rick Levy  
The Digital Marketing Shoppe.
